

## Program Overview

---

Thank you for your interest in the HUMVEE C-SERIES program. It is great to know that more than 25 years after we built the first HMMWV for the US military, this great vehicle is still of interest to people in the United States and around the World. We have received many inquiries asking if we would sell kits to enthusiasts interested in building their own HUMVEE. We want to be able to provide such a kit, but before we start we need to make sure that enough people are interested to justify our investment and to gain the interest of component suppliers. We have structured a program that we hope will allow us to move forward. Following are key aspects of the program.

- We have established introductory pricing for the base kit and options and will be accepting fully refundable deposits.
- If you wish to reserve a HUMVEE C-Series kit, fill out the attached Deposit Calculation Worksheet and return to us along with a 10% refundable deposit.
- Not later than March 30, 2013 we will make a final determination if it is viable to move forward with this program.
  - If we decide the program is not viable, your signature below represents your express understanding that AM General will simply cancel all reservations and return all deposits by April 30, 2013.
  - If we decide the program is viable, we will send you a sales contract.
- Once the sales contract is issued you will have 30 days to execute and return the agreement along with payment for the full amount of your kit.
- If you change your mind after making a reservation and deposit, but prior to signing the sales contract, your deposit will be fully refundable upon our receipt of your written cancellation.
- If you are one of the first 50 to sign and return a sales contract, your kit will include a commemorative placard reflecting this special status. Assuming we receive sufficient interest and the program moves forward, we estimate that kits will be available beginning in June, 2013.

Please read carefully the information below and please refer to the Deposit Calculation Worksheet and other sections of our website for a complete description of kit contents, options and services provided. AM General is proud to make this unique kit available for your enjoyment.
